Proudly presenting the Pina from Zafferano, available at IDS by Innovative Design Group, is Innovative Design Studio (IDS), known for its dedication to luxury and innovation in lighting. This exquisite addition to their prestigious collection is sure to impress. This foldable lamp reinvents lighting by skillfully fusing elegance and usefulness.

Pina is more than just your average dimmable, rechargeable table lamp. It is a simple-to-use lighting assistant that provides touch control for effortless brightness adjustment. The lamp's durable die-cast aluminium frame blends elegance and endurance, and its contact recharging base provides hassle-free charging. Soft, even lighting is produced for both indoor and outdoor environments by the energy-efficient LED light source and the premium polycarbonate diffuser.

Pina is incredibly versatile because it can survive a wide range of weather conditions, including dust and water, according to its IP54 designation. With a single charge, it may run continuously for up to 12 hours, guaranteeing dependable performance day or night. Pina elevates every area by fusing style and utility and creating new benchmarks for opulent lighting.
