# IDS brings Martinelli Luce's Grammoluce to India

***IDS by Innovative Design Group presents Grammoluce Martinelli Luce, an interactive table lamp that combines smart design with receptive lighting management to provide a personalised light experience via tactile contact.***

Martinelli Luce's Grammoluce, an ingenious lighting solution, that adds sophisticated design to innovative lighting displayed through IDS by Innovative Design Group. Grammoluce shows a smart mix of materials which includes a structure crafted from borosilicate glass, an outer membrane of lycra fabric with paired aluminium base. This special compilation creates a receptive lighting system where design and innovation meets effortlessly.

IDS\_ACEDesignSense

Grammoluce distinguishes itself by using a novel approach to light modulation. The lamp incorporates a dynamic white LED source, with sand-blasted crystal spheres of varied weights placed on the elastic face to alter the light intensity and tone. This sensory contact converts Grammoluce into an operational work allowing users to easily customise their lighting experience.

IDS\_ACEDesignSense

Grammoluce is a mood switchable table lamp mainly created for its aesthetic and utility. Its modern and amenable light diffusion makes it a perfect choice for hospitable spaces, high-class lifestyle, and contemporary workspaces merges form and function.
