Inspired by the traditional Galician cabins, humble yet protective spaces that symbolize shelter and simplicity, the Cabana Lamp, designed by Isaac Piñeiro, evokes a sense of serenity and seclusion. Its soft, balanced form reflects thoughtful design, elevating comfort while staying rooted in a conscious approach to sustainability.

How to Get Your Projects Published | Online Course

At the heart of the Cabana's innovation lies a pioneering 3D knitting technique, a process typically seen in the textile industry, now adapted for lighting. This advanced method creates a seamless, three-dimensional lampshade with zero material waste, reinforcing IDS's and a-emotional light's shared commitment to eco-conscious design. The piece is completed with a sleek aluminum canopy and a parchment diffuser that adds subtle weight and diffuses the light, creating a warm, uniform glow, much like the tranquil shelter of a cabin.

The Cabana Lamp is available in three signature colors, Electric Blue, Orange, and Off-White, to suit diverse design concepts. Its versatile design makes it ideal for residential, hospitality, or commercial spaces seeking to create a refined, calming atmosphere with a touch of personality.

“Cabana is a true reflection of what we stand for at Innovative Design Studio, artistry with responsibility,” said Aryaman Jain, CEO, Innovative Design Studio. “It embodies how innovation and sustainability can come together to create lighting that not only transforms spaces but also respects the planet.”
