“Innovative Design Studio (IDS) expands its lighting portfolio with Linfa by Tooy, a collection that blends botanical inspiration, Murano glass craftsmanship and contemporary Italian design.”

Innovative Design Studio (IDS), renowned for bringing internationally acclaimed lighting collections to India, unveils Linfa by Italian lighting brand Tooy. Designed by Federico Peri, the collection reinterprets botanical forms as sculptural lighting pieces, marrying artisanal craftsmanship with a refined contemporary sensibility.

Named after the Italian word for sap, Linfa takes inspiration from the organic rhythms of nature. Slender metal arms branch outward with fluid elegance, echoing the delicate veining of leaves, while handcrafted Murano glass diffusers resemble suspended dewdrops, lending the collection an ethereal presence and sculptural sophistication.

Spanning chandeliers, pendants, floor and table lamps, as well as wall sconces, the collection extends a cohesive design vocabulary across diverse interiors. Whether conceived as a striking focal point or a subtle accent, Linfa imbues

spaces with a sense of fluidity, elegance and understated sophistication.

Every aspect has been thoughtfully examined. The branching metal structure comes in matte nickel, titanium, and gold finishes, each of which gives the design a unique personality. The transparent, smoky, and milky white finishes of the handcrafted Murano glass diffusers add visual contrast, depth, and softness.

Linfa is a sculpture in and of itself that provides ambient lighting while striking a balance between artistic expression and practicality. The line works well in upscale homes, boutique hospitality settings, and modern business areas where lighting is crucial to creating a certain mood.

The addition of Linfa underscores Innovative Design Studio's ongoing pursuit of world-class lighting design, bringing together craftsmanship, innovation and refined aesthetics for the evolving Indian design landscape.
