

THE LIGHT EDIT

VOL 20. ISSUE 01

**SOME LIGHTS SIMPLY ILLUMINATE A SPACE.
LINFA DEFINES IT.**

Linfa by **TOOY**, curated exclusively by **IDS**, is inspired by the gentle rhythm of nature, its flowing forms bring softness, movement, and presence to the spaces it inhabits.

What makes Linfa special is how naturally it enhances rooms. A ceiling installation in a double-height foyer. A wall configuration in a boutique suite. A floor piece in a study that needed one more considered detail. Linfa was designed for all of it.

Designed by Federico Peri

Named a Rising Talent at Maison&Objet and recognised by AD France in their AD100 - Peri is one of Italy's most considered voices in contemporary design. Linfa is that sensibility, expressed in brass and glass.

SLENDER. GLOWING. IMPOSSIBLE TO IGNORE.

At **IDS**, we love discovering designs that feel both expressive and effortless. **Linfa** is one of those rare collections - the perfect fit for luxury residences and commercial spaces that set the standard.
